

HVAC Sheet Metal Installer

Description

As one of the nation's largest single-source providers of construction contract labor, Commercial Trade Source (CTS) is currently expanding our field team by accepting applications for HVAC Sheet Metal Installer in the Tampa, Florida area. Along with steady work year-round, we also offer:

- Health / Dental Insurance.
- Paid Holidays / Vacations.
- Overtime Opportunities.
- Prevailing Wage Opportunities.
- Paid Apprentice Programs.
- Continued Safety Programs.
- Tool Purchase Programs.
- Safety Education Programs

CTS is the partner-of-choice for many of the top construction companies across the United States. CTS not only partnered with some of the industry giants, but also supports small and medium businesses across the country from our different regional offices. CTS is a family-owned company, and our primary goal is building lasting relationships — with contractors, industry partners, and our employees.

CTS has been long considered to be one of the most successful construction contract labor companies in the nation. CTS has been awarded by the Associated Builders and Contractors with prestigious Trolson Image Award, and has also been selected as a top place to work in 2020 and 2021. Due to its dedicated staff and strong field team, CTS has built a strong reputation and an extensive network of contractor relationships that keeps our field team employed all year long.

Responsibilities

Responsibilities of the HVAC installer include, but not limited to:

- Maintain and repair or replace components on various air conditioner units\ chillers, rooftop units, wet and dry side systems, cooling towers, centrifugal, hermetic, screw, and scroll compressors.
- Install, alter and repair sheet metal products and equipment ducts and hoods for HVAC systems utilizing blueprints, drawings and work orders.
- Maintain and repair major steam or hot water leaks throughout system, repairing or replacing steam or hot water heating piping and associated equipment parts as needed.
- Maintain and repair various refrigeration equipment.
- Install, maintain, and repair D.D.C. controls, BAS, cabling, relays, and all associated equipment. Must be able to communicate with various building automation systems from work station or computer.
- Install, maintain, and repair fan, cabinet, and unit heaters.
- Install, maintain, and repair gas heating equipment.
- Occasionally assist boilermakers with repairs.
